School Notes

By
JOSEPH WEISS

It seems sort of peculiar that when a person graduates from one school and enters another of higher learning he is suddenly dropped from the heights of ecstasy to the depths of despair. At one's former school he is treated with all that courtesy befitting a senior; at the new school he must entertain the upper classmen, sing songs for them, scrub walks, and even carry their books.

Sierra Madre freshmen at the junior college came in for their full share of the dirt. Selwyn Myers was seen leading a group of other freshmen in school songs. He wasn't the only one. Leroy McBurney and Francis Linn were also seen obeying the upper classmen.

By the shape of things there will be at least one local man on each of the football teams at the college. Hugh Addis is doing his best in order to win a berth on the trip to Hawaii that the senior team will take this year.

Car books of 46 rides are still obtainable at the book store upon the payment of \$1.61. It seems rather hard on students that they must wait 45 minutes for the P. E. car in the afternoon. It is hoped that a special will soon be put in service.

I have been reliably informed by one who took part that there have been several fights and rough doings on the roof of the Horace Mann building. The participants were chased down to the lawn where the free-for-all continued. Stale eggs, egg-plant, grapefruit—all had their part in the melee, until the bell rang.

Several freshmen committed a serious blunder the first week of school when they painted "frosh" on the flag pole. Perhaps they did not know that the pole was dedicated by the class of 1916 to the seventy-five boys who volunteered for the war, and from which few returned.

WOODROW WILSON NEWSSETS (By the Same Party)

Local football talent is well represented on the junior high team. On the field the other night in their new uniforms we saw Gilbert Sommers, Elbert Bodine, Henry Knutzell, Lindsay Greig, and last but not least, Stuart Dittmar. Elbert and Stuart seem likely to make the first string. Coach Sutherland is sure working his boys.

Sorry this is all we have from Woodrow Wilson, but if some kindhearted persons would turn in short articles to the Sierra Madre News we then could see

(By Marion Kravetz)

This year's first meeting of the Woodrow Wilson Girls' Athletic Association was called to order in the gym Monday, September 30, 1929, at 12:30.

Marjorie Sturgess, president of the W.A.A. at Pasadena Junior College outlined the duties and ideals of the organization and installed the new officers. Those who took the oath were, president, Doris Booker; vice-president, Rose Brown; secretary, Frances Baxter; assistant secretary, Ernestine Manning; treasurer, Marion Kravetz; yell leader, Eva Callaway; head of basketball, Gertrude Kley.

Doris Booker received the gavel from Miss Sturgess and responded with a welcome to the new girls and Miss Latimer, new instructor, and told of the intramural activities in sports and the point system of awarding nu-

merals, letters, stars and emblems.

Miss Adams, corresponding secretary of the Junior College W. A. A., told the girls of their activities at J. C.

Marion Kravetz, treasurer made a plea to the girls to pay their dues immediately.

Gertrude Kley, head of basketball, gave a pep talk and rally for the sport.

Frances Baxter introduced the following girls who presented original skits accompanied by Miss Virginia Burdick, pianist: Basketball—Billy Pippett, Juanita Byer, Jane Manning, Hockey—Bernice Lindgren, Kathleen Moote, Mary Solnit, Tennis—Sadie Sellers, Faith Friday, Faye Friday, Baseball—Virginia Fennel, Mary Mapp, Ruth Schuster.

Mildred Newton led a new G. A. A. song which was written by Virginia Fennel. Cheers were led by Eva Callaway.

The new girls and ladies of the faculty were guests at the meeting.

James McNeill Whistler, famous artist, once was a draftsman in the United States coast and geodetic survey, but he could not hold a job. The painter and etcher insisted on decorating the maps and charts assigned to him to make, with pretty little drawings scattered along the margins. Because of this and the fact that he insisted on doing all his drafting in his own way, Whistler did not remain long in the service of the United States government.

Visiting one of the twenty Pueblo villages remaining in Arizona and New Mexico where the descendants of the original cave men of the United States still live in that fashion, says Cap- per's Weekly, Andrew Wing finds the Pueblo woman is the absolute master of the home. That probably is about all there is to the myth of cave men ferocity toward womankind. Women of all ages have known how to handle men. How could it well be otherwise when they have always had charge of their bringing up?

The ancient tradition common among all primitive peoples of a world-wide flood is now thought by scientists to have been sound. The cause of the ocean's rise may have been the melting of the ice-cap at the North Pole at the end of the last Ice Age, which occurred about 20,000 years ago. According to Sir Edgeworth David, famous Australian geologist, the level of the entire ocean would be raised about fifty feet if the whole Antarctic ice barrier melted. Practically every seaport town would then be under water.

The resignation of Mrs. W. E. Walker, second vice president and chairman of ways and means, presented at Wednesday's meeting was accepted with regret. Plans were discussed for the course of twelve to fourteen lectures to be given by Dr. Roman.

Atmosphere Brings Increased Patronage To School Cafeteria

Cheeriness—that is the first impression that comes to one's mind when entering our Sierra Madre school cafeteria. New white curtains with sunny gold dots and gold tie-backs, a vase of bright-colored flowers of golden hue; benches, floors, tables, woodwork—all absolutely spotless. Such an atmosphere for our boys and girls at their noon-day meal!

The menu, ever important, is well chosen with quality and quantity as by-words. Each day the menu, according to Mrs. John Patterson, manager, consists of soup, one main hot dish, a meat or meat substitute, two vegetable hot dishes, variety of salads, two desserts, sandwiches, milk, ice cream.

The biggest year, up-to-date, for the cafeteria has commenced with 85 to 100 served each day, with 75 the opening days last year being considered good. The prices are kept as low as possible as the cafeteria is absolutely a non-profit enterprise.

Improvements are constantly being made, and other cafeterias studied to obtain the best results. A new Frigidaire with double compartment is an acquisition.

The small children sit on tiny, newly painted green chairs, at low tables, in a separate room. Benches are utilized for the older pupils.

Mrs. Patterson, an efficient manager, is assisted by Mrs. Ware. Mrs. Steinberger, mother of Miss Elizabeth Steinberger, principal, made the curtains.

Pasadena is so anxious that Colorado street be extended eastward to connect directly with the Foothill and Valley Boulevards at Arcadia, that the board of directors of Pasadena has offered to transfer \$25,000 from its share of the gasoline tax quota to help pay for paving of the Colorado street extensions in the city limits of Arcadia. Road plans approved by Arcadia propose that Colorado street shall be continued straight thru the Baldwin ranch to connect with arterial highways already paved through Arcadia and Monrovia.

Mr. and Mrs. A. R. Mercer of Los Angeles have leased from Mrs. Josephine Marr the home at the southwest corner of East Central and Mountain Trail. They moved in Tuesday of this week. Mr. Mercer is field man for the Union Casualty Fidelity Company.

Miss Mary Stark, formerly of Morenci, Arizona, now of Pasadena, was a week end guest of Mr. and Mrs. James C. Heasley.

Mr. and Mrs. R. B. Moellar of Detroit were dinner guests of Mr. and Mrs. F. C. Ronge at the Ronge home on Woodland Drive. Mrs. Ronge and Mr. Moellar are cousins.

Mr. and Mrs. Charles Hesse had as guests here for the day on Saturday, Mrs. Christine Wheeler Randolph and Mrs. Ralston of Cape Girardeau, Mo.

Mrs. S. Black and her daughter, Miss Yvonne Black, of Los Angeles, are spending a week at Rocky Ridge cottage on Woodland Drive. Miss Black is a pupil of Alfred Kastner, celebrated harpist of the Los Angeles Philharmonic orchestra.

The new athletic spring board installed last week at the deep end of the pool, is proving a source of enjoyment to swimmers, both young and old. Mr. and Mrs. James C. Heasley, pool lessees, hope for favorable weather conditions for the balance of this month.

Mrs. Frances H. Burton entertained Sunday at 1 o'clock dinner at her home, "Linger Long," in honor of the birthday anniversary of her grandson, John Foreman of the U. S. Battleship Mississippi. Table decorations and favors were in pink and red. Water hyacinths and ferns formed an attractive centerpiece. A pink and white cake, bearing red candles, was cut and served to the six guests by Mr. Foreman.

Mr. and Mrs. Robert Mitchell of Los Angeles, Mrs. Myrtle G. Hill, Mrs. Ella A. Cadmus and Miss Laura Estelle Cadmus were dinner guests of Mr. and Mrs. John Marquardt, 1645 Francisco Street, Pasadena, Monday night. In the evening Mr. Marquardt ably played Corelli and Sarasate numbers on the violin, accompanied by Mrs. Hill at the piano. Mrs. Hill also accompanied Miss Cadmus in song groups which included the Gounod-Bach "Ave Maria," with violin obligato.

A near tragedy Sunday night was turned into an amusing incident when Ande Rost of Alhambra arose from the interior of his overturned car wearing a broad smile and apparently none the worse for his experience. In backing his car down the incline on East Yuca Trail at dusk Mr. Rost struck a steep bank on the side hill and overturned his car. Passing residents rushed to the scene expecting to rescue an injured man from the wreck and were much relieved to be greeted with a smile. Miss Mary Berger and Miss Mary Diestman of Pasadena, who had been guests of Mr. Rost at the German Tourist Club for the day, fortunately had been instructed to walk to the end of the trail during the backing process. A. L. Phelps, E. O. Moody, J. F. Key, Wm. A. Thomas and J. Stelle promptly set the car back on its four wheels and the party proceeded on its way to Pasadena.

ROSH HASHONA

TODAY and tomorrow, October 1 and 2, mark the beginning of the 569th year in the Hebrew lunar calendar. The New Year, or Rosh Hashona, is a day of deep moral and religious significance for all Jews—days on which every Jew takes inventory of his moral state and seeks forgiveness for his shortcomings. According to the teaching, on these two days it is as if the Divine Hand who shall be the judge of who shall pass on, who shall prosper, who shall suffer during the year is being written. It is a holiday of solemnity and sacrifice of introspection and consecration, one of joyous and optimistic hope for the future.

Religion is the great rock upon which civilization rests. Emerson said: "The greater calamity can fall upon a nation than the loss of worship!" The many Jewish New Year has called them to work an integral part of our citizenry. We join in wishing them the golden season: "Loshono Tov"—"May You Be Inscribed for New Year!"

FIRE PREVENTION WEEK

OCTOBER 6 to 13 has been set aside as Fire Prevention Week. During this time public and private organizations will make an effort to educate citizens in the fundamentals of fire prevention with our terrible fire waste.

In past years the fire rate has gone down during the week, only to rise again to "normal" immediately after. It is the old case of a lesson going in and out the other. Sierra Madre has an efficient fire department but that is not why we should be less careful of prevention.

Fire is perhaps the greatest single danger to progress we must face. Even if it destroys property, which, in terms of monetary value, would support governments, cover the country with highways, provide greater education for our children, and on top of this must be the still greater destruction in human life.

During Fire Prevention Week we learn of the danger of neglected chimneys, carelessly disposed of matches or piles of refuse, poor building construction and so on. But unless our citizens learn lessons learned through the other 51 weeks of the year nothing will be gained. Make Fire Prevention Week—the week of a Fire Prevention Year.

Chaney Drives Huge Engine In Latest Film

Huge locomotives rushing at breakneck speed to the rescue of victims in the Mississippi flood area, the construction of an entire locomotive in the great shops of the Chicago Northwestern line, Lon Chaney as a veteran engineer driving a locomotive more than 600 miles in filming the picture—these are some of the thrills in "Thunder," to be shown at the Monrovia Lyric Sunday and Monday. Louie causes an early departure of some of our most dig- members. However there something for all regard- personal tastes. to old age and a few other agencies, the "mother" of Flames apologizes to the Boys (and all who are in- ed) for the lack of time de- to this department. In or- "keep up" with the events own city it is necessary to e a great deal of time d and about. This we have unable to do of late and y the apology. If there be serious complaint, we would y accept a salary out of \$4000 per week to \$3000. e notice that our Baby Bro- Bob Babbitt, is wearing a t contented look since his returned to him. Mrs. Bab- had been visiting in the east, she took the children with Bob yelled "Hurrah" for a- de, but not for long. It was only noticeable that Bob's face d lost that satisfied and happy pression. Everything is all right ain now, tho, since Mamma babbitt is back to him. The last time we saw Chief chards he was wearing dark-

colored glasses. We wonder if he is parking cars somewhere, while enjoying his vacation. With colored glasses this would be a pleasure.

We now have another police- man in our department. After the resignation of Jack Wilkerson an election was held and Scott was duly admitted to the first degree secrets of our organization. He will receive a degree each meet- ing night for the next fifty-two consecutive meetings and then he will be eligible to join the "Or- der of the Felas."

We are sorry to los Jack Wil- kerson as an active member. Jack now works in Los Angeles and is unable therefore to per- form the duties of a Sierra Mad- re fireman.

There has been no word of either Gordon McMillan or Gordon Brooks going deer hunting this year. It has been learned that one of our city dads is now on his annual vacation to kill deer, or whatever may look like one. It's a good thing that Mis- souri mules don't swarm about thru the brush around Bakers- field and vicinity. We hope he brings home the bacon or roast beef.

Well, cut out the argument, the Fire's Out!

The Civil War revolutionized the habits of the people, writes Warren F. Spalding in the Bos- ton Transcript. All their move- ments, mental and physical, were quickened. Having had the news of the war day by day, they never returned to the old ways. The daily newspaper was the child of the Civil War. People became accustomed to having the news every day. They found that other things were interest- ing, and they must have the news about everything every day—the daily newspaper had be- come indispensable.

The man who thinks he is too old to work at 61 might profit by the example of Halley, the great English astronomer who discovered the comet. When Hal- ley was 64 years old he made up his mind to observe the moon thru a complete revolution of her nodes—a task which requires 18 years. His friends remonstrated with him for undertaking so long and serious a task, but, as some- times happens with our English friends, he thought his own ideas much better. He proceeded to prove this by living and com- pleting his 18-year task, and then lived several more years and did several more pieces of work to boot.—Detroit Free Press.

HOW'S YOUR CREDIT?

YOUR CREDIT lies in the good faith which your merchant places in you. It is based upon the confidence that exists be- tween you and your merchant. With your credit, you may obtain a suite of furniture, a new car, or food and clothing for yourself and your family. Your merchant trusts you as a reliable citizen of the community and gives you the priv- ilege of paying him later.

Human nature has a way of postponing the payment of bills. There are so many things to be bought with each week's salary that often the pay- ment of bills is neglected—many times unintentionally. Thrifty people manage their family budgets wisely, pay their bills promptly, and buy the things they need when they can best afford them.

Co-operate with your merchant. PAY YOUR BILLS ON TIME and con- tinue your good credit with him. Your merchant has invested his profits in extending credit to you and is entitled to a fair return. He enjoys giving you credit. When credit is good, business is good. Don't abuse the credit privilege. Pay your bills when they are due and uphold the good faith which your merchant places in you.

ROSH HASHONA

TODAY and tomorrow, October 5 mark the beginning of the 5690 in the Hebrew lunar calendar. The New Year, or Rosh Hashona, is a day of deep moral and religious significance for all Jews—days on which every Jew takes inventory of his moral status and seeks forgiveness for his shortcomings. According to the teaching, on these two days it is in the hands of the Divine Hand who shall be bo who shall pass on, who shall prosper who shall suffer during the year to come. It is a holiday of solemnity and sacrifice of introspection and consecration, and one of joyous and optimistic hope for the future.

Religion is the great rock upon which civilization rests. Emerson said: "greater calamity can fall upon a nation than the loss of worship." The many Jews New Year has called them to worship an integral part of our citizenry at We join in wishing them the golden ing of the season: "Loshono Tov savu"—"May You Be Inscribed for a New Year!"

FIRE PREVENTION WEEK

OCTOBER 6 to 13 has been set as Fire Prevention Week. During this time public and private organizations will make an effort to educate citizens in the fundamentals of doing with our terrible fire waste.

In past years the fire rate has gone down during the week, only again to "normal" immediately after. It is the old case of a lesson going in and out the other. Sierra Madre has an efficient fire department but that is not why we should be less careful of prevention.

Fire is perhaps the greatest obstacle to progress we must face. If it destroys property, which, in monetary value, would support our highways, provide greater educational facilities or do any number of other things. And on top of this must be the still greater destruction in homes.

During Fire Prevention Week learn of the danger of neglect carelessly disposed of matches, piles of refuse, poor building construction and so on. But unless our citizens learn lessons through the other of the year nothing will be gained. Make Fire Prevention Week a Fire Prevention Year.

Robert Clark Dies In San Francisco From Auto Crash

Word was received here Tuesday by Pete Hinojos of the accidental death of Robert Clark, 16, who moved to San Francisco from Sierra Madre in June.

Robert had attended a moving picture show in the Bay City, and enroute home at 11 o'clock Monday night was accidentally hit by a passing motorist. He was rushed to a hospital but passed away before the arrival of his father, C. H. Clark, at the hospital. Pete Hinojos had just returned from a visit with the Clark family who were residents of this city about four years.

Robert graduated from St. Rita's in June, and Sister Superior states that he had the making of a splendid man, attended his studies faithfully, was always polite, very respectful, a good student and a real credit to his class.

Ernest Lyle of Helena, Mont., is spending the month of October with his aunt, Mrs. C. Howard of 186 Mariposa. He was a guest of the Goodyear Tire Co. three days last week, as his firm in Helena won the state prize for selling the greatest amount of tires during the 60-day contest.

On Sept. 27 Patrolman Lawrence M. Tozier of Big Santa Anita Canyon, arrested Joe Elkins of 7th and San Pedro Streets, Los Angeles, for building a fire without a camp-fire permit. Mr. Elkins appeared before Judge J. O. Durrell at Monrovia, Sept. 30 and pleaded guilty. He was fined \$50 or 25 in jail, and elected to take the jail sentence.

Sierra Madre Man Brings Patent Suit Involving Millions

Fred D. Terry, 90 South Sierra Madre Avenue, and a resident of this city for two years, is the plaintiff in a suit for infringement of patent rights that involve millions of dollars. Mr. Terry is the originator of the well-known product "No-Mor-Fly" and the holder of the process patent.

Representing Mr. Terry is the celebrated San Francisco attorney, John H. Miller, who battled for years to recover millions of dollars from Montana copper kings on behalf of his client, Wm. Campbell Carson, impoverished miner-inventor.

The case being tried in San Francisco is a test case against John S. Rosefield doing business in Oakland as the An-Po Manfg. Co. The main point is that if this suit is successful, Mr. Terry, thru his attorney, will file infringement suits against the Standard Oil Co. of New Jersey, manufacturers of "Flit," which Mr. Terry claims infringes upon his patented fly spray.
